## DOORMAN daughter

His early proofs indicated that Doorman was the real deal, when the calves hit the ground and started turning up at shows his popularity boosted once more. Now Doorman's first daughters are milking and he continues to impress. There is already 1144 daughters classified of which 84 percent scores Good Plus or better! In addition, 205 daughters score Very Good as two-year-olds in the Canadian classification system. This all results in an impressive +18 Conformation in Canada and +3.54 PTA Type. But Doorman also offers a good index including fantastic scores for SCS and high fat and protein percentages. It's no wonder this Bookem son is still a popular mating sire in the Semex program and why we will likely hear about Doorman for years to come. Watch for his daughters parading the colored shavings this fall at World Dairy Expo and the Royal Winter Fair.
